

NUMERA SMART CRADLE

Compatible with Numera Libris and 345 Mhz Wearables

numera™

The Numera® Smart Cradle operates as a hub for the 345 Mhz personal safety wearables. Numera Libris® users can now choose to wear lightweight, small accessory safety wearable buttons at home and while sleeping, when Libris is charging in its cradle.

Wearable help buttons provide 24/7 safety at home when in the 300 ft range from the Smart Cradle. Wearables connect with Libris in its cradle when the emergency button is pressed or a fall is detected. The convenient wearable personal safety buttons provide an option for increased safety during the night and when Libris is docked in the Smart Cradle.

Libris with Smart Cradle provides the best solution for both home and on-the-go personal safety needs: Users can leave the Libris in its cradle while at-home and use a miniature wearable. Users can take Libris with them (now always fully charged) for daytrips and outings away from home. While on-the-move, Libris provides a completely mobile personal safety experience.

Please see Important Safety Information for Libris on numera.com/libris

Features and Spec

- Integrates with 2GIG/Numera compatible wearable personal help buttons that use 345 Mhz signal: PHB1, PHB2 and Fall Detector.
- Charging cradle for Libris
- Range up to 300 ft

2GIG-F1 FALL DETECTOR PENDANT

PROACTIVE PERSONAL
SAFETY PENDANT WITH
PROVEN FALL DETECTION
SUMMONS HELP WHEN
YOU CAN'T

The 2GIG-F1-345 Fall Detector Pendants are the latest in technology in the Numera® line of Personal Emergency Wearables. Reliable strong transmission with range up to 300 feet with Libris docked in the Smart Cradle, plus leading-edge fall detection technology, promote full-time use and around-the-clock protection.

Our 2GIG-F1 pendants are compatible with Numera devices, including the Numera Libris mPERS product line and Numera Home Safety Hub console, as well as with 2GIG® home security systems.

FEATURES - FALL DETECTOR PENDANT

- Cutting-edge Fall Detection Technology: Multi-axis sensor intelligence recognizes the most amount of falls.
- Proven: Fall detection leverages Numera Libris' advanced fall detection algorithms and fall assessment capabilities that are based on real human falls.
- Proactively Sensitive: 3D sensing capability enables an alert immediately in the case of a fall
- Strong Transmission: With range up to 300 feet
- Full Time Use is Full Time Protection: Attractive comfortable design encourages usage at all hours
- Completely Sealed: Durable, shock and water resistant (IPx7) with long lasting battery
- Configurable: 2GIG-F1-345 (345 MHz) is fully compatible with Numera and 2GIG systems and is configurable to activate the fall detection feature
